With your gift of just $50, you can take care of one through Medicine!
Jesus lived AMONG us and He empowered us to serve WITH Him. Our needs became His needs; our problems became His problems. By living among the people He came to serve, Jesus provided the most authentic example of humility and love; an example we want to follow in everything we do at Christ Health Center.

Safety, health, quality of life, economic stability: when our patients experience challenges in these areas, so do we. At Christ Health Center, we are determined to share the love of Christ and find solutions to these problems together. We are not a prescription TO or FOR the community; we are neighbors sharing life with...
These statistics are heartbreaking.
But at Christ Health, we exist to see the sick made well, and the well made whole. We desire to reach as many as possible with life-saving healthcare and the life-giving message of Jesus by serving with and among our neighbors.

We Have Great News!
Recently, Christ Health Center acquired St. Vincent East Family Medicine Residency Clinic in Chalkville, Alabama. We are so excited about this expansion! Having a Christ Health facility in this area will help us target our services and reach more patients than ever before.

Developing Leadership for Sustained Growth Is Vital.
“We need physicians who are driven by the mission of sharing the love of Christ through medicine.”
Meet Dr. Marion “Barney” Sims.

The quality of care we provide and future growth beyond Woodlawn and Chalkville hinge on having leaders to carry out the work. Dr. Sims and the residency faculty have come to work with Christ Health to grow our work of training and mentoring residents and medical students to meet the needs of the communities we are called to serve.

In his role as Resident Director, Dr. Sims has trained over 150 family physicians and 500 medical students over the last 30 years through St. Vincent—including our CEO, Dr. Robert Record.

“There’s a great need for clinics and physicians that serve people without insurance and of low financial means throughout the country,” says Dr. Sims “but it’s not enough to just produce technically trained doctors; we need physicians who are driven by the mission of sharing the love of Christ through medicine.”
“This community is helping me raise my son. They’re my family; They’re our family.”
In 2017 Christ Health served more people than ever. We are proud of all that God Has done through us and we are excited for the opportunities that lie ahead.

Meet Kassandra and Adam.

Kassandra began caring for Adam as a foster child when he was just 4 days old. This now thriving 11-year-old boy was born addicted to cocaine and meth and had a myriad of gastrointestinal, neurological, and heart problems.

Adam was a tiny baby who wouldn’t gain weight and was failing to thrive until Kassandra discovered Christ Health when he was still an infant.

“At Christ Health, Dr. Record made sure Adam got the right treatment to help him gain weight. He coordinated the specialists, prayed with us, and was always a phone call away,” says Kassandra. "I will never go to another doctor. This community is helping me raise my son. They’re my family; THEY’RE OUR FAMILY.”
The Way Forward:
Our goal is to continue serving more patients like Adam and Kassandra. By doing so we will make an impact beyond what we are doing today.

Over the next 5 years we hope to provide world-class medical AND spiritual leadership training to:

- 35 Family Physicians
- 100 Medical Students
- 50 Nurse Practitioners
- 60 Pharmacy Students
- 325 Dental Students

This training will impact the way these clinicians care for patients and we know some of them will choose to replicate the Christ Health Center model in other communities.

We seek to reflect the heart of Jesus in everything that we do.

When Jesus was traveling between villages sharing the good news of the kingdom and healing the sick, he was “moved with compassion” and told his disciples: “the harvest is plentiful, but the workers are few. So pray to the Lord of the harvest to send out workers into His harvest.”
Our Prayer

It is our prayer that we can impact the Kingdom of God through medicine and we know we were never meant to do it alone. We need help to serve patients in need TODAY, and visionary partners to invest in the leaders of TOMORROW. We need partners who believe in serving with and among.

- **A ONE-TIME GIFT OF $1000** helps develop and train physicians to share the love of Christ with hurting people in need of care.

- **A ONE-TIME GIFT OF $1500** equips an exam room to provide a quality experience for patients; 33 rooms need sponsors.
